Whitestone Associates, Inc. Your Trusted Partner for Brownfields Redevelopment

Rahway, Union County, NJ Project Summary:

Contamination in soil and groundwater at concentrations exceeding NJDEP standards at a 1.9 acre under-utilized site in Rahway, NJ resulted from on-site USTs, ASTs, former site operations, and potential off-site sources. Corrective actions included registration and regulated closure of on-site USTs, "hot spot" soil excavation and disposal, installing and sampling groundwater monitor wells, and implementing a groundwater remediation program. Some 75% of site investigation and remedial action expenditures were reimbursed to the Redeveloper pursuant to NJ's *Brownfield and Contaminated Site Remediation Act*. The site currently houses an operating convenience store and gasoline station. [Click here to learn more about this and other Whitestone projects.](#)

Before

After

Environmental Services

Negotiating the complexities of environmental regulations can be challenging and time consuming. Whitestone relies upon demonstrated experience and knowledge of local conditions and regulations to deliver solutions that are timely, practical and cost-effective.
